-What I do for brides

I like to make it a fun and relaxing experience.

Whether you're stressed, excited, nervous or distracted, I pride myself in being able to read the room and provide a vibe that will comfort and lighten the mood, even if that means being funny, relatable or just plain quiet.

- I have a particular set of skills

Custom blended foundation for everyone! With my background in art and color theory I am a wiz at color matching.

Custom blending foundation and color pallet for client's complexion and undertones is key to making makeup look natural and seamless.

-Favorite rom-com

Earth Girls Are Easy. Who doesn't love a good 80's alien romance with Jeff Goldblum. Also it has quite possibly one of the best makeover montages ever!

-Makeup philosophy

My philosophy regarding makeup is definitely influenced by my NW upbringing. Not in the sense of “less is more” but “more isn’t always necessary”. Everyone has the potential to shine from within no matter your comfort level with makeup. You deserve to feel like the best version of yourself and not like a clown.

### -Why I love weddings

I love doing weddings not only because I'm a hopeless romantic but because I find it so touching how friends and family rally around the bride on such an important day. Another thing I love about weddings is seeing the bride's individual style shine through in all of the details. A lot of work goes into planning a wedding and when you're in my chair I want you to set back, relax and enjoy the fruits of your labor!
